- 409 stainless steel convoluted tube furnace
- Up to 18 to 1 turndown
- Operates down to -40°F ambient
- ETL certified for Canada and USA

- ## Fans

- High efficiency forward curved DWDI fans
- Greasable pillow block bearings
- Adjustable motor mount base
- Fan skid mounted on RIS isolators, spring isolation optional

Filters

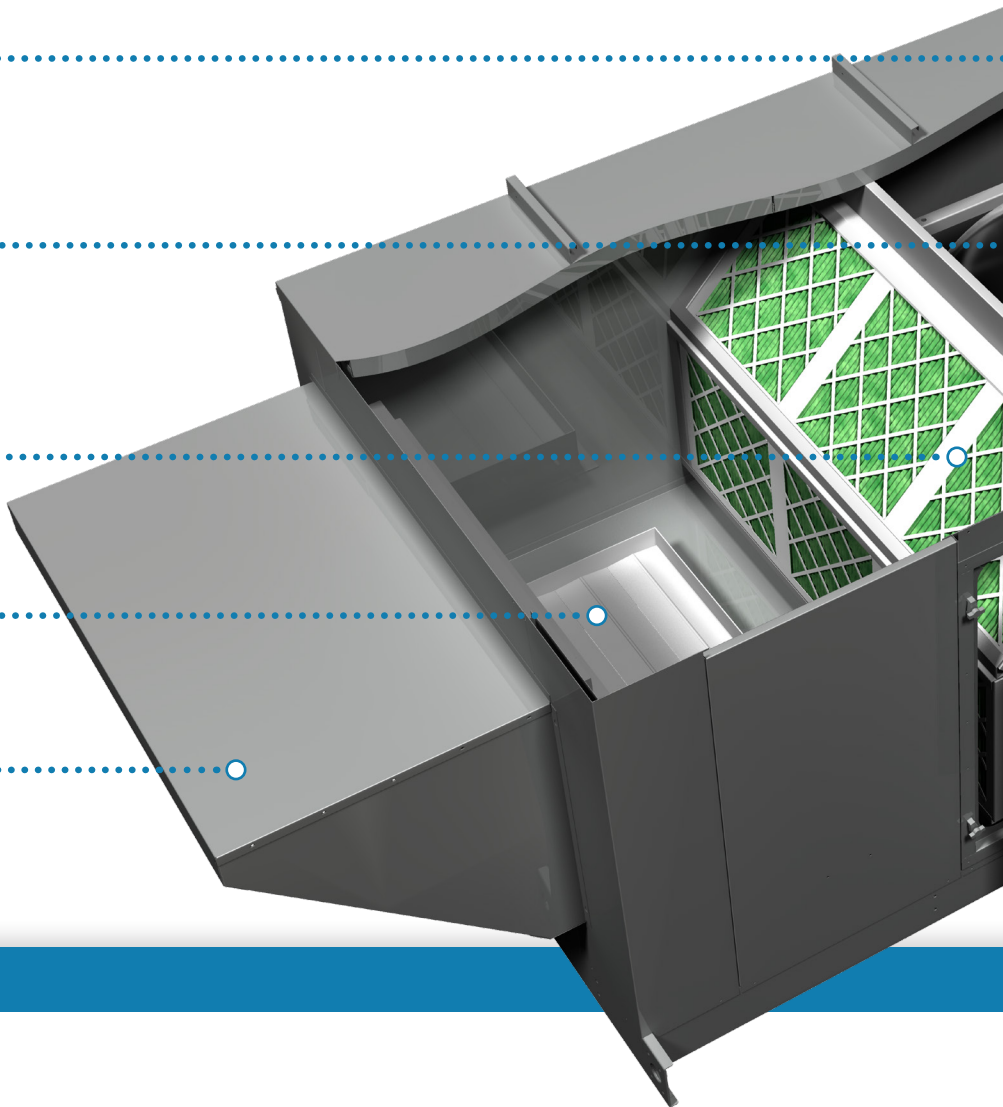

- 2 inch filter rack
- MERV 8, hi-temp and washable media filters available

Dampers

- Triple-vee roll formed galvanized steel blades
- Optional low leak aluminum airfoil or insulated airfoil dampers

100% Outdoor Air Hood

- 18 gauge painted galvanized steel
- Half inch expanded metal bird screen
- Motorized two position damper
- Optional mixing box shown

PMI-IF series (pictured above)

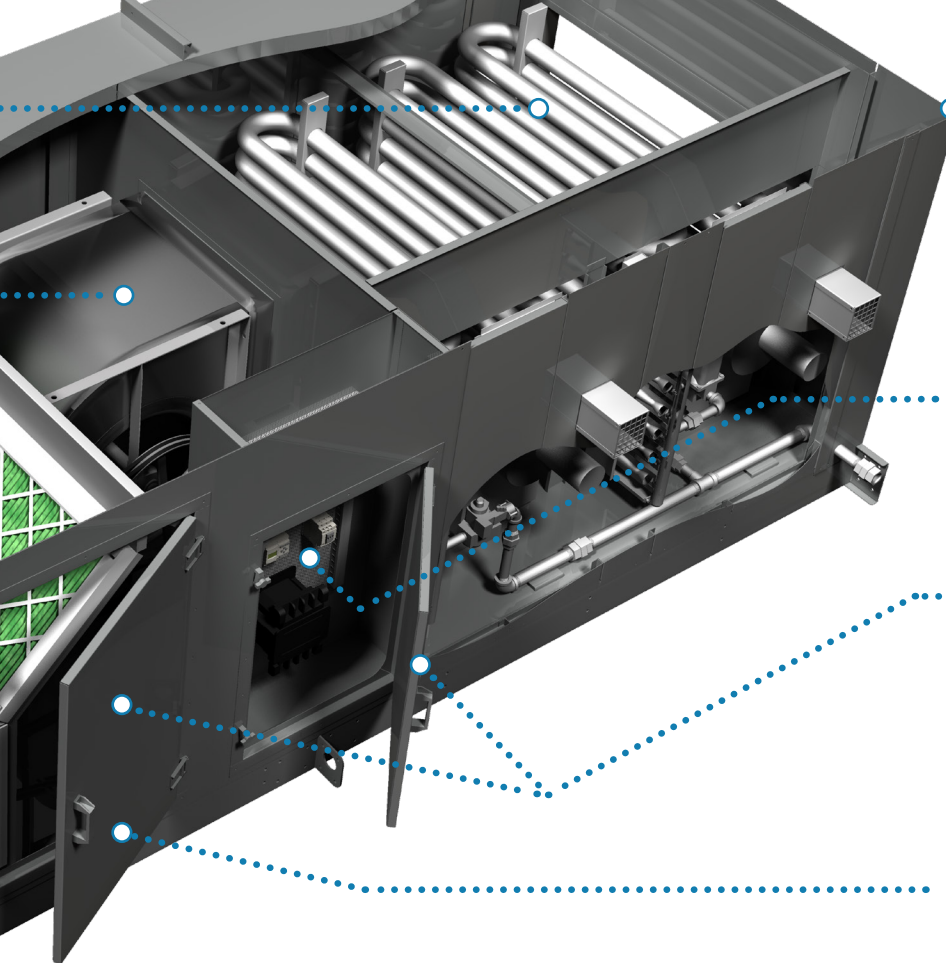

COMMERCIAL GAS FIRED **MAKE-UP AIR UNITS**

PRICE MECHANICAL focuses on providing HVAC products and services to the commercial and industrial sectors

Industrial silencers, gas filtration units, gas fired make-up air units and air handling units are used throughout the petrochemical, mining and pulp and paper industries, just to name a few.

The rigorous demands of these industrial applications form the backbone of the Commercial Gas Fired Make-Up Air Series of products. Contractors, engineers and building

owners are challenged daily with HVAC construction, design and performance – both in new and retrofit applications. Designers must meet stringent requirements regarding energy efficiency, indoor air quality (IAQ) standards, and life cycle cost. To meet these challenges, Price has developed the PMI-IF, AW-I, and AW-D series of gas fired make-up air units.

Cabinet

- 18 gauge painted galvanized steel
- Panel seams are turned inward for clean appearance
- 1 inch 1½ lb. density glass fiber insulation

Controls

- Digital controls operate unit standalone
- Can be integrated into building automation system
- Operator controls are straightforward to use and allow discharge air temperature adjustment

Doors

- 18 gauge painted galvanized steel double wall doors
- 1 inch, 1½ lb. density glass fiber insulation
- No tools required to gain access
- Doors supplied for fan, filter, and gas manifold controls sections

Disconnect

- Through-the-door disconnect for safety
- Single point power connection

PMI-IF SERIES

The PMI-IF series is an indirect fired unit that utilizes a high efficiency stainless steel convoluted tube heat exchanger. By separating combustion air from the supply air, the unit is able to maintain excellent indoor air quality (IAQ). These units can be used in schools, offices, and institutional projects – anywhere that IAQ is paramount. The convoluted tube furnace is one of the most cost effective indirect fired designs.

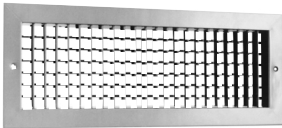

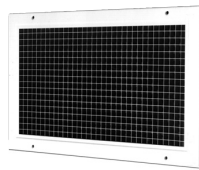

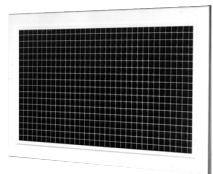

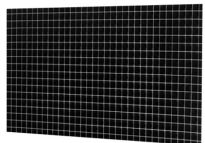

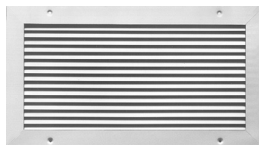

AW-I SERIES

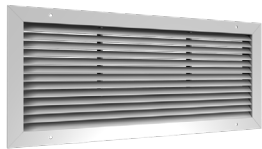

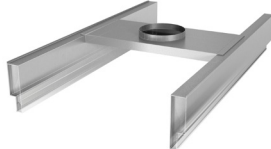

For demanding indirect fired applications, Price offers the AW-I series with a three pass stainless steel drum and tube heat exchanger. The robust heat exchanger was designed by the Price industrial division, where reliability is always paramount.

AW-D SERIES

For applications requiring a large volume of 100% outdoor air, the AW-D series offers a direct-fired alternative. The unit incorporates a high efficiency burner, which is capable of a high turndown ratio, maximizing discharge air temperature control with minimal combustion by-products.

PRICE ELECTRONICS GENERAL OFFICE APPLICATION

Rooftop Unit Controller

- The Price Rooftop Unit Controller (PRTU) polls data from the network zone controllers and intelligently controls the packaged roof top unit.
- The ASHRAE standard BACnet option allows for advanced control and monitoring of a building system.

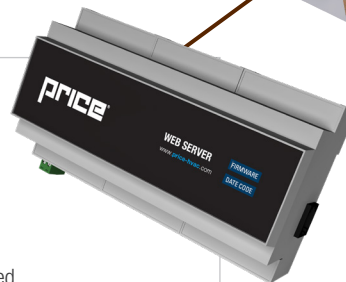

Remote System Access

- Access to the Price Web Server via the Internet.

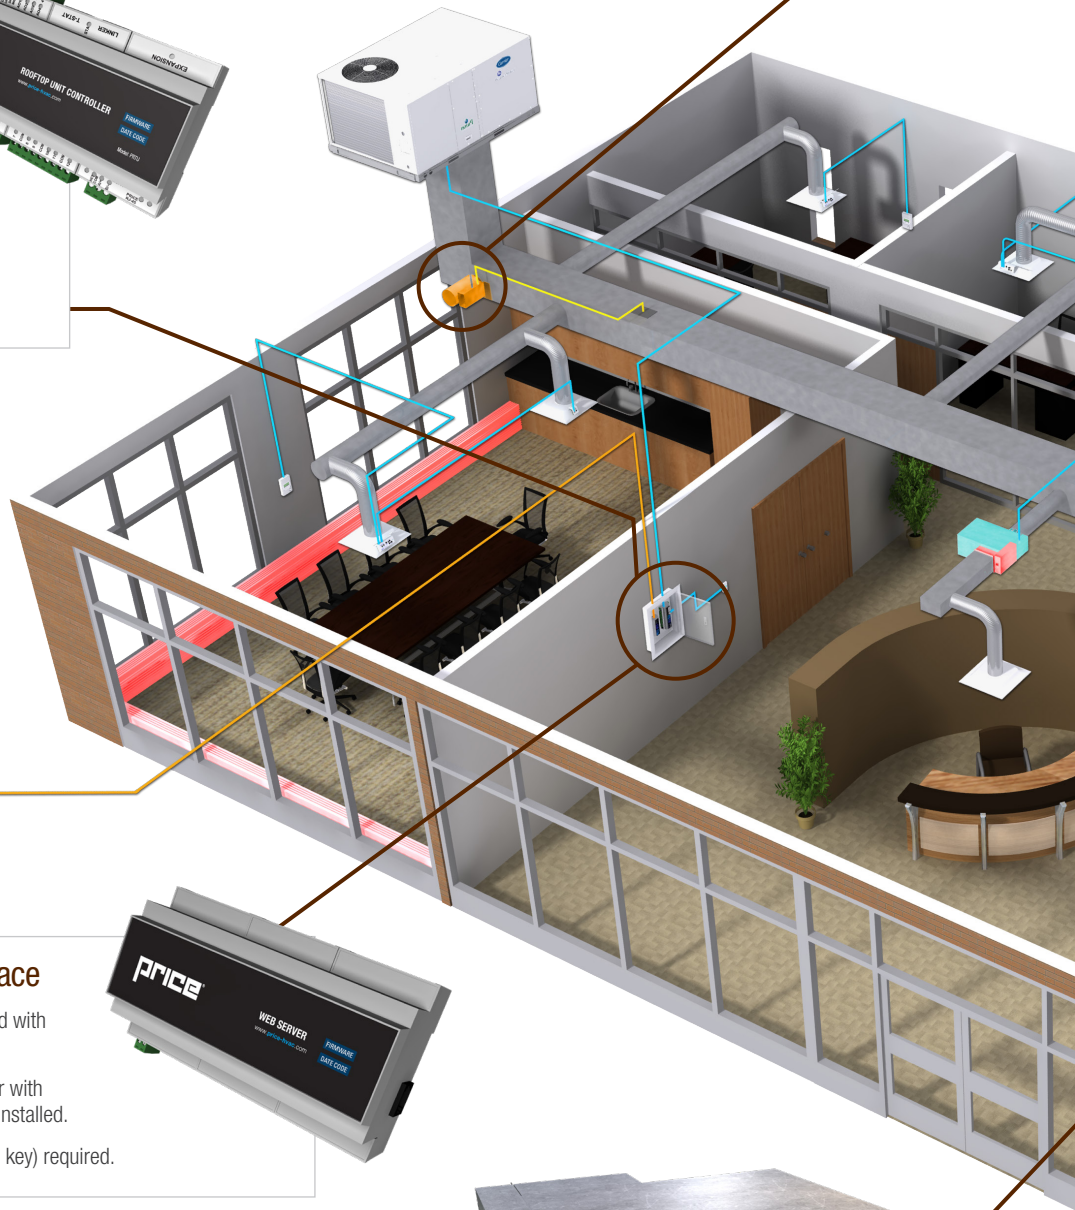

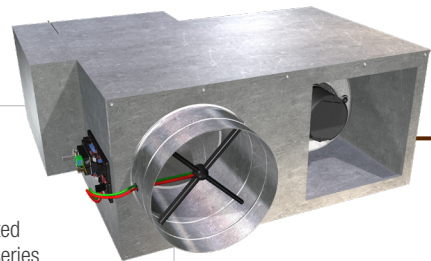

Graphical User Interface

- Price Web Server pre-loaded with graphics for Price Controls.
- Access via any web browser with free ADOBE FLASH plug-in installed.
- No software or license (USB key) required.

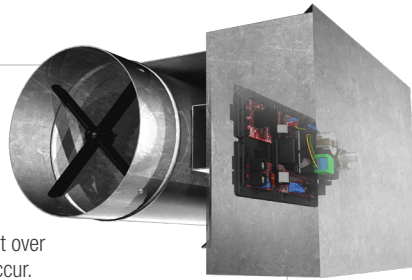

Fan Powered Box with VAV Controller & Reheat

- Price's factory mounted and calibrated Price Intelligent Controller (PIC) for series and parallel fan power terminal units.
- Fan Powered Terminals allow for the use of local reheat even while the rooftop unit is turned off.

Duct Pressure Controller

- The Price PCV is designed as a pressure control valve to regulate duct pressure in a VAV or VVT system.
- The PCV uses a DDC controller to ensure that over or under pressurization of the duct will not occur.

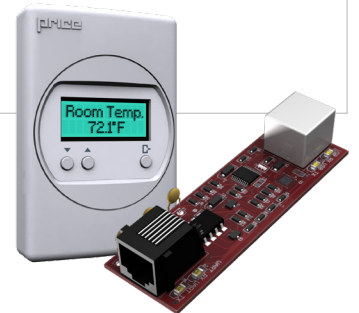

VAV Diffuser

- PRODIGY® Smart Diffuser.
- Stand-alone or native BACnet MS/TP.
- Compatible with all Price thermostats.

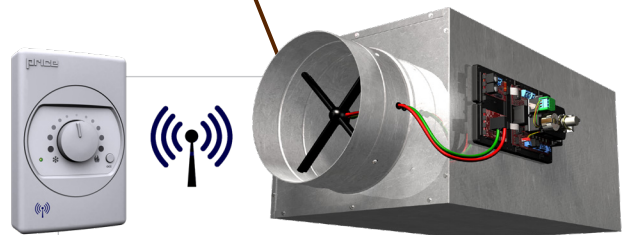

Linkersoft2 Software & LCD Setup Thermostat

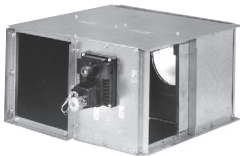

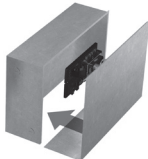

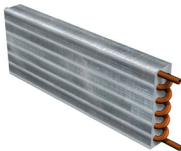

- Easy to use step-by-step setup and calibration software, dedicated to Price Controls products.
- Connect the LINKER2 USB cable into your service laptop, or Price provided LCD Setup Thermostat, and the RJ12 connection into the room's thermostat or controller service port.

Single Duct Terminal with Wireless Thermostat

- Wireless thermostat allows for convenient, wire free placement in any room, on any surface.
- Compatible with our factory mounted calibrated Price Intelligent Controller (PIC).

BAS-1P – STOCKED IN OTTAWA

BAS-1P Fan Starters

- Concealed hand/Auto Mode
- Voltage & Dry inputs for auto run command
- Run status verification via Integrated current sensing
- Disconnect switch with Lock out
- Adjustable overload (1-16A)
- LED Pilot Lights (Power, Run and Fault)
- Disconnect switch (Lockable)
- Manual overload trip reset (Automatic available)
- 1Ø - 110V, 1/10 to 1hp; 1Ø - 240V, 1/10 to 1hp
- System override mode
- 5 Year warranty

LED pilot lights for ease of use

Lock-out disconnect switch

Adjustable overload (1-16A) eliminates sizing heaters

Vari-Green® Motor

Start saving now - with the low-cost, easy to control, electronically commutated motor that offers high reliability and low maintenance.

The Greenheck Vari-Green Motor blends technology, controllability, and energy-efficiency into a low maintenance package that is changing the way industry designs, specifies and operates air movement equipment.

www.greenheck.com

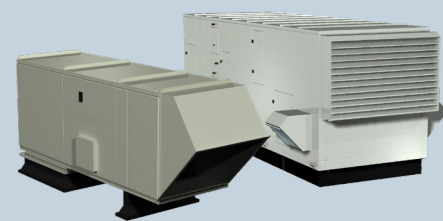

Commercial & Industrial Fans

- Commercial Fans
- Industrial Process Fans
- Gravity Ventilators
- Fiberglass Reinforced Plastic (FRP) Fans for resistance to extremely corrosive gases/ environments

Kitchen Ventilation Systems

- Wall, island proximity and heat, condensate hoods
- Internal and external supply plenums optional
- Standard baffle filter, high velocity cartridge, high efficiency Grease-X-Tractor and dual stage Grease Grabber, filtration.

Make-Up Air Units & Air Handlers

- Direct and Indirect Gas Fired Make Up Air Units
- Indoor Air Handling Units
- Electric heating, hot water, chilled water and DX options

Building Value in Air
World Wide

		TZ3-LG-10ft	TZ3-EY90QG-10ft	
Y-FIT HOOK ACCESSORY				
	Y accessory can be added to any hang fast system Ideal for: <ul style="list-style-type: none">• Radiant panels• Lights and Cable Trays	AY2-HG-460MM (18")		No. 2 - 100lbs
CORNER SADDLE ACCESSORY				
	Used with Hangfast system for hanging rectangular ductwork			

SEISMIC AND VIBRATION ISOLATION COMPONENTS

GRIPPLE® SEISMIC SWAY BRACING

Gripple® Seismic Cable Bracing Systems offer the following advantages:

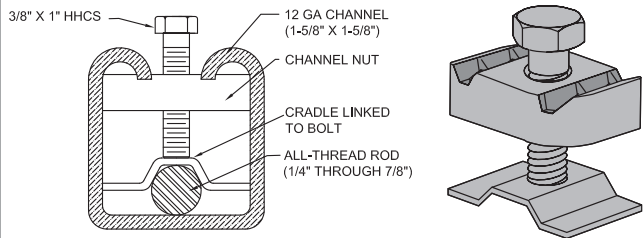

- Complete pre-engineered systems
- No field swaging of cables
- Up to 10 times faster to install
- No tools required
- Color coding allows easy field verification
- Suitable for new or retrofit installations
- Can be used in a variety of bracing configurations (transverse, longitudinal, 4-way)
- OSHPD OPA 2123-10 approval (GS10, GS12, and GS19 systems)
- SMACNA verified
- UL NEBS GR 63 Core Certification

1. Gripple® Seismic Cable
2. End Fitting
3. Color Coded Tag
4. Gripple® Seismic Fastener
5. Loose Bracket

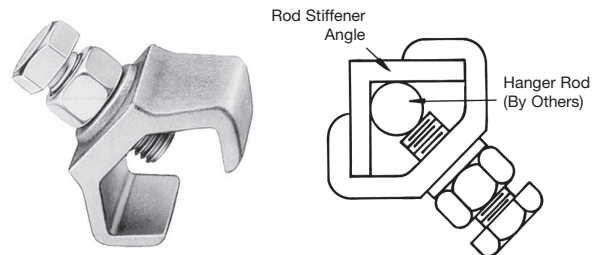

Kit	Color	Design Strength (LRFD)
